

Alliant 2 Contract

Alliant 2 GSA's Premier Best-in-Class Enterprise GWAC provides flexible access to customized IT solutions.

The scope of the Alliant 2 GWAC includes any and all components of an integrated Information Technology (IT) solution, including all current and any new technologies which may emerge during the life cycle of the Contract, and IT systems and services in support of National Security Systems, as defined in FAR 39.002. The primary Alliant support areas include:

- Back Office Services
- Business Analytical Services
- Business Asset Services
- Business Management
- Component Framework
- Controls and Oversight
- Customer Service
- DoDEA Mission Area Support
- Planning and Resource Allocation
- Process Automation
- Regulatory Development
- Risk Management and Mitigation
- Service Access Delivery
- Service Interface and Integration
- Service Platform and Infrastructure
- Support Services (Security, Systems, Forms Management, and Communications)
- System and Network Controls

Contract Benefits and Features

With GSA's Alliant 2 Contract, government agencies can obtain a single source of integrated

IT services and access to “best in class” private sector IT services. Its broad array of features and benefits include:

- \$75 Billion Ceiling
- Period of performance – July 1, 2018 to June 30, 2023, with one five-year option from July 1, 2023 to June 30, 2028
- Worldwide coverage
- Low .75% Contract Access Fee
- Task Orders of all contract types: fixed price (all types), cost (all types), labor hour, time and materials, hybrid
- Pre-competes, easy-to-use contract with streamlined ordering procedures based on FAR 16.505 providing access to a highly qualified pool of industry partners and solutions
- Scope aligned with Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DODEA) and allows for emerging technologies to be performed
- Allows for long-term planning on large-scale programs
- GSA Alliant 2 PMO provides complimentary training and scope reviews
- Agencies receive credit towards socioeconomic goals

The Customer Agency defines requirements and may place orders under Alliant 2 by either:

- Direct Acquisition: GSA issues a Delegation of Procurement Authority to the customer agency Ordering Contracting Officer (OCO) who performs the acquisition.
- Assisted Acquisition: GSA performs the acquisition on behalf of the customer agency and provides post-award support.

Culture of Innovation, Customer Success, and Employee Growth

About Guidehouse Digital

Guidehouse Digital is a trusted government partner that blends deep domain expertise with advanced technologies to help our customers solve complex problems that improve, protect, and save lives. As a rapidly growing company, we combine entrepreneurial spirit, customer focus, and an outcomes-based approach to support agency missions in health IT, life sciences, public safety, and grants management. Guidehouse Digital brings the following capabilities to our customers.

Domain Expertise

Health IT

Assisting stakeholders across the health IT continuum improve outcomes, quality, safety, efficacy, and compliance.

Life Sciences

Supporting researchers in making better decisions by accelerating discovery and advancing science – from bench to bedside.

Public Safety

Helping agencies advance their missions through developing and supporting applications and systems that keep citizens safe.

Grants Management

Enabling grantors and grantees to spend money wisely by streamlining grants administration and facilitating effective grant program outcomes.

Advanced Technologies

Advanced Data Analytics and Artificial Intelligence (AI)

Bringing advanced technologies and proven, domain-relevant processes to enable our customers to transform how they use data to make better business decisions and further their missions.

Enterprise Digital Modernization and Systems Integration

Applying experience of transforming legacy, monolithic systems into modern, integrated data platforms that enhance user experience and advance agency missions.

Cloud Adoption and Infrastructure Optimization

Helping to accelerate and mature organizations' Cloud adoption journey through best practices, architecture blueprints, landing zones, and variety of reusable and repeatable engineering services.

About Guidehouse

At Guidehouse, we combine unequalled expertise, specialized resources, and deep domain experience to solve problems that cross sectors, industries and geographies for clients of the public sector and the regulated commercial markets they serve. Guidehouse is the only scaled consultancy in the world to fully integrate commercial and public or government businesses within each of our industry segments because complex problems require both perspectives to address and outwit. We see this integrated model as the future of consulting and the only way forward reshaping the future together with our clients.
