

State Health & Human Services

Shaping a healthier future for all

State health and human services agencies are navigating rising demand, evolving funding and compliance requirements, workforce constraints, and growing expectations for more accessible, coordinated services.

We know that stronger systems create healthier communities. You need practical support that connects policy, operations, technology, and program delivery. We work alongside you to strengthen financial stewardship, modernize operations, improve care quality, and build programs that create lasting value for communities.

Connecting
strategy,
operations,
and tech to
improve lives

Our offerings

Financial Management

Modernize financial operations with data-driven, technology-enabled support for reporting, budgeting, audit readiness, internal controls, compliance, and risk management. This improves your data integrity, reduces risk, and provides leaders with the insights needed to strengthen fiscal stewardship.

Mission Enablement

Turn strategy into measurable impact with practical support from vision through implementation. Our teams help you define priorities, improve service delivery, enhance customer experiences, manage risk, and deliver measurable outcomes through human-centered, data-driven strategies tailored to your mission.

Operating Model & Organizational Design

Streamline operations to align people, processes,

resources, and activities for your mission. Together, we simplify workflows that strengthen efficiency, support service delivery, and adapt to changing community needs.

Program Management, Execution & Delivery

Move complex programs from planning to measurable results. Improve processes, manage implementation, evaluate performance, optimize costs, and reduce risk so your programs operate more efficiently and deliver stronger outcomes.

Technology

Align technology investments to mission outcomes with secure, scalable solutions across AI, data, cloud, cybersecurity, application modernization, and platforms. We help modernize systems, improve operations, increase productivity, and deliver better experiences for the people and communities you serve.
